Dear Bekaert,

I am writing to express my interest in the IT intern position at Bekaert, as advertised on LinkedIn. With a solid educational background in Computer Science from “Babeş-Bolyai” University and hands-on experience in various programming languages and software development projects, I am enthusiastic about the opportunity to contribute to your team.

During my academic journey, I have developed a robust foundation in programming and software development. My proficiency in languages such as C/C++, Java, C#, .NET, and Python, coupled with my experience in web technologies including HTML, CSS, and JavaScript, positions me well to excel in this role. I have also gained practical experience with SQL databases (Microsoft SQL, Postgres, SQLite) and frameworks such as Spring, Hibernate, and ReactJS.

One of my notable projects, the Study Contract in C++, involved implementing advanced memory management concepts and design patterns. This project honed my skills in C++ and GUI development using the QT framework. Additionally, my work on the Social Network application in Java allowed me to deepen my understanding of domain-driven design and backend database connectivity.

At Bekaert, I am particularly drawn to the innovative environment and the opportunity to work on cutting-edge projects. I am confident that my technical skills, coupled with my ability to work effectively in a team and my passion for continuous improvement, would make me an asset to your team.

I am excited about the possibility of contributing to Bekaert and am eager to discuss how my background, skills, and enthusiasm can be in line with the goals of your team. Thank you for considering my application. I look forward to the opportunity to further discuss my qualifications with you.

Sincerely,

Ion Andreea-Marina
